ABOUT ME

I'm a 2nd year BSc(Hons) Digital Media student at UWE currently looking for a placement related with visual design, user experience or web development.

EDUCATION & QUALIFICATIONS

Digital Media at The University of the West of England

2015 - Present

Modules: Graphic Design, Web Design, User Experience, Multimedia Studio, 3D Technologies for the Web, Data Schemas and Applications.

Visual Arts at Amora's Secondary School, Portugal

2009 - 2012

Modules: Drawing, Culture and Art History, Materials and Technologies, Foreign Language (English) **EQF Level 4**

CERTIFICATES

Multimedia at Institute of Employment and Training, Portugal

2013 - 2014

Modules: Adobe Suite, Front End Development (HTML,& CSS), Database Management with SQL, Video Capture and Editing. **EQF Level 5**

TECHNICAL SKILLS

HTML, CSS, Javascript, PHP and mySQL. I've worked with frameworks, CMS and libraries such as JQuery, GSAP, Bootstrap and Wordpress.

CREATIVE SKILLS

Adobe Suite, including Illustrator, Photoshop, After Effects, Premiere and Animate. Prototyping, sketching, critical thinking.

ACHIEVEMENTS

Part of research project team in Hong Kong, to study design improvements for public transportation. (2016)

Awarded best design for Golfinho Parade project. (2011)

WORK EXPERIENCE

Sally likes Art, UK

05/2016 - 10/2016

Designed and developed website for illustrator Rob Watson, as a freelance web designer.

I have created a custom web experience from scratch, tailored to the artist's style and approach to showcasing work.

I was able to complete the design and deploy a website that exceeded the client expectations.

Lucile Pingaud Website, UK

06/2016 - 09/2016

Designed and developed website for camera operator and filmmaker Lucile Pingaud, as a freelance web designer.

Considering design and user experience aspects, I have used my coding skills to work on front end and back end development, implementing a CMS and deployment into a server.

This resulted in a portfolio website the client can add content without the need of a developer.

EJMM Logotype, POR

03/2015 - 05/2015

Created logotype and visual identity for a jazz music school based in Portugal, as a freelance graphic designer.

Working on the identity of the school, required research on instruments and study of the institution values. To produce the final logomark I've relied on my design, sketching and Adobe Illustrator skills.

Getting involved in this project resulted in the school becoming more recognisable as an organisation.
